North West Rail Link , EIS 2 Submission  
Application # SSI-5414

Dear Sir/ madam

We live in Cherrybrook area and the family of 4 commute to the schools and work place in Chatswood area.

After waiting for several years we had the convenience of using the North West link and we request that it not be given to private parties - if the travel rates are exorbitant it will make it very very hard for the struggling family.

We request you that the current fare structure be maintained and object the proposal to be privatised.

Thanking You

Lata Pillai
