Subject: North West Rail link EIS 2 Submission - Application Number SSI-5414 - Objection to proposed plans
CC: Peter Breen <peter.breen@sampfordixl.com.au>

Attention: Director, Infrastructure Projects

I wish to load an objection to the proposed changes effecting the operation of the Northern and Macquarie Park train lines as part of the current North-West link proposal. The North West link could proceed without affecting commuters on the Northern and Macquarie Lines if the interchange was at Epping rather than Chatswood. This would allow the Macquarie Park Line to remain as a public railway line, with the current fare structure.

I strongly object to the proposed changes, which will impact all commuters on all lines to the north.
