**Subject:** Attention Director, Infrastructure Projects

---

**Dear Director Infrastructure Projects**

**Re: SS1-5414**

I refer to the above application and would advise that as a regular rail user from Cheltenham the advice that I will have to change trains at Epping and Chatswood to travel by rail to the city is ludicrous. We have, for over a hundred years, been able to travel to the city without having to change trains. Would you please advise me why this would ever be acceptable or necessary.

Yours sincerely

Penny Dean
