Dear Madam, Sir,

RE - EIS 2 Submission

Name – Rohit Joshi  
 Address – 11 Kayla Way, Cherrybrook, NSW 2126  
 Application Number – SSI-5414

I would like to raise few concerns in relation to this major program. I am a resident of Kayla Way and the proposed station shares a common boundary with my property.

1. Privacy and Noise – What are the arrangements being made to minimize this?
  - a. We need to have a 6M permanent concrete fence separating our property from the station
  - b. We need to have sound-proofing done to our houses to minimize the impact of noise during and after construction
  - c. We need to raise our individual fences to protect our property from increased public accessing the site
  - d. We would like the NWRL program to fund these as these activities need to be carried out due to this major program
2. Dust Pollution – Kindly outline what dust reduction measures will be in place and how the residents are to be compensated
3. Water Treatment Plant – This is just behind my backyard – what are going to be the environmental impacts and how will I be compensated for these
4. Traffic – What is the impact of the construction and post construction traffic and how do you propose to manage this. Currently Castle Hill Road going to M2 (Thomson Corner) at about 8am on weekdays is heavily congested and it takes up to 40 minutes to cover some 3KM. If you put heavy trucks on the road with no modification / expansion of Castle Hill Road how are we expected to get to work in a reasonable time?
5. Expansion of Castle Hill Road – Is this being considered as part of the major program?

Regards, Rohit
