Attention: Director Infrastructure Projects.

Reference: Application number (SS1-5414).

Dear Sir,

We do support the construction of the North West Rail Link even though the rail corridor is within thirty (30) metres of our boundary. We do appreciate the effect that has been made not to close this residential caravan park. The population growth has been quite amazing.

We went to the Epping Club on 22 November 2012 to confirm some facts in relation to the EIS2. It was suggested we write to get these facts as the EIS2 was not quite completed.

Query 1: What is the predicted dBA level at our property boundary.

Query 2: How many metres is the closet rail line to our property boundary.

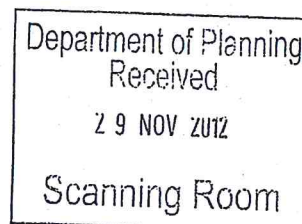

Query 3: How many metres is the 2 metre high wall to our boundary.

Query 4: Which noise reduction attenuation tract will be used adjacent to our boundary.

Being so close to the rail line, vibration and noise is a concern to us.

Yours faithfully,

MIKE CHAPMAN
Director
