**Subject:** Objection to EIS2

---

**Name & Address Robert & Patricia McManus**

**7A York St , Beecroft NSW 2119**

**Objection to EIS2.....**

**Application number SSI-5414**

**Dear Sir/Madam I am extremely disturbed and troubled by the the proposal in EIS2 to have rail commuters**

**between Hornsby and Epping having to travel on 3 trains and make the required train changes to travel to**

**the city. We are fiercely opposed to this proposal.**

***The proposal will require us to change trains at Epping making us use the either the escalators or the lifts and***

***to connect with crowded trains from the north west and then to again to change onto crowded trains from the upper North Shore at Chatswood.***

***These changes will of course increase our travel time and cause us to endure an onerous trip. As we are both over 70 years of age this continual***

***changing of trains and extra travel will have adverse affects on our physical capabilities and health. Apart from ourselves I am very concerned***

***about the inconvenience this will have on people with physical disabilities and venture to suggest that this proposal is a direct contravention of***

***your duty of care to these people ourselves and the community at large. The proposal is very limited as to the physical and timing effects of travel***

***for people boarding trains between Hornsby and Epping.***

*Tricia & Rob McManus*
