**Subject:** Regarding affects of NWRL brought to the resident of northern line

---

Name: Polly Gardner

Address: 225A Beecroft Road Cheltenham NSW 2119

Application number: SSI-5414

**Brief statement:**

I am writting to express my concern regarding the environment impact of northwest rail link development. Currently as a passenger of Northern line, we enjoy the convenience of direct link to the city. I am extremely concern with the possible development of NWRL.

In the future, we will be forced to change at Epping for a single deck train. At Chatswood, we will then need to change again back to a double deck train to get to the CBD.

\* That means having to get three trains into the city increasing travel time by 15 minutes rather than the one seamless system they enjoy now - and that assumes they can get on the first of the trains that arrives.

\* The introduction of this incompatible component is unacceptable.

I hope the planning authority will consider the impact of how single deck train would affect passengers of Cheltenham.

Regards,  
Polly Gardner
