Re : Robert Rd, Cherrybrook, as a feeder rd for the new station at Cherrybrook.

1. Address : 5, Arundel Way, Cherrybrook
2. Using Robert Rd as a feeder road to Cherrybrook Station
3. Application no. SSI-5414
4. I object to the proposal
5. Reasons for objection :

My house is placed with the backyard facing Robert Rd. The bedrooms are also along the back of the house.

- a. I will have a lot of noise all day and night in my house with buses going up and down Robert Rd.**
- b. I will have no privacy at all as anyone on a bus will be able to look directly into my home over the fence.**
- c. My security will be severely compromised.**

Will the government take responsibility for my concerns?

Regards,

Nina Dang
