Dear Sir

I am writing to you to ask you to oppose the Springdale Solar development

I have lived here on a grazing property since I was seventeen. Now I'm 81

I am 4th generation resident

The property I live on is similar to the planned Solar Farm

This country is highly productive Land
It has been cropped for years. It runs beef cattle & sheep very successfully.

Its stock have topped the markets many times

I am not opposed to Solar Farms but this farm proposed is in the wrong place. It should be in the South West Energy Zone — Hay

I believe Springdale Solar Farm is being leased for 30 years & with an option of another 20 years.

What is going to happen to all the people who own farms in the district in the meantime. They will find it difficult to sell their land & its value will drop.

I was talking to Kim Turner who is deputy mayor of Yass Valley Council on 2-8-18 & he didn't know about the Solar Farm application as it had not been brought up in Council

Please give my objection every consideration

Yours faithfully

RK Lees
