Scanning Room

Dear Sir/Madam.

We oppose the Brandy Hill Quarry
expansion.

We strongly oppose any increase in heavy trucks using Brandy Hill Drive and surrounding roads. There are too many heavy trucks using these goat tracks already.

The noise from these large trucks does not stop and is most aggravating to say the least & they pump out toxic diesel fumes that we breathe all day, everyday.

The lack of respect for road rules and poor infrastructure proves the speed limit on Brandy Hill Drive is way too high.

We are already bombarded with heavy truck noise from these quarries, but imagine 980' heavy trucks going past your front door everyday.

It will destroy the area and will certainly destroy our lives.

Property values will plummet if these quarries are approved, we won't be able to give them away.

Please do not allow any more heavy trucks on these roads.
