This is a submission to the Berrima Rail Project EIS. SSD7171

I object to this project and recommend that it be rejected.

There is NO justification for going ahead with this project - It is wrong and that means the rail project is complicit. Instead - PLEASE either put more pressure on NSW Govt to improve commuter rail use & trains to encourage people OR put resources into any other project that helps us reduce the damage to environment & use resources more responsibly rather than adding local dust (at the very least) to our home in Southern Highlands

I ask the Government to reject this project

Signed,

Julie Maher
