This is a submission to the BERRIMA RAIL PROJECT EIS. SSD7171

I object to this project and recommend that it be rejected.

We already hear a number of trains from the Boral Cement Works (over 2 kilometres away). Hume Coals 4 trains a day would only make matters worse.
It appears that these coal trains will be uncovered - on a windy day, more pollution in Berrima. Shocking pollution in Robertson where many houses are near the railway lines. There will also be more disruptions to road traffic, as the mine will generate additional traffic delays at level crossings. This could have a big effect on emergency vehicles.
Thank you.

I ask the Government to reject this project

Signed, David A. Cloonan.
