This is a submission to the Berrima Rail Project EIS. SSD7171

I object to this project and recommend that it be rejected.

- I have lived in Benima for almost 10 years. I moved here as I loved the community feel & the pristine environment. This project will completely change the local ambience of the area and also the local environment. I strongly object to this project on the following grounds:
- ① Noise - noise pollution increasing impacting on my family's quality of life.
  - ② Time at level crossings increased.
  - ③ Pollution - coal dust particulates pollution. I note that my father & grandfather have suffered with asbestosis & emphysema - I have witnessed the devastating impact of lung disease.
  - ④ Closure of rail crossings - impacting on emergency vehicles access to the local community.

I ask the Government to reject this project.

Signed,
