This is a submission to the Berrima Rail Project EIS. SSD7171

I object to this project and recommend that it be rejected.

*This Hume Coal Mining proposal is
located within the Sydney Water Catchment
and has enormous potential for DAMAGE
to the Sydney metropolitan basin.
If there is any chance of threat to this
catchment this project should not go ahead.
Living in the village of Berrima there is
* enormous possibility of NOISE IMPACTS which
has had limited mention
* COAL DUST and DIESEL emissions will also impact
greatly on our village.
* ROAD & RAIL impacts are a great worry
with limited infrastructure which is not addressed.
* POOR ECONOMIC Return for NSW - How
could the NSW Government consider spoiling
such a beautiful area renowned as very special
in Australia.*

I ask the Government to reject this project

Signed,

C. M. Gaston
