Scanning Room

Dear Sir / Madam,

I am writing to you to
inform you of my objection to the
two proposed Projects above.

As a Very new resident
to the Highlands I am shocked & Surprised
that the Government of the day, could
even consider giving permission to
this Company to start their project
here or anywhere at this day & stage
of our occupation of our planet.
As climate change & water levels,
rising we need to be coming up with
different Sources of Energy - Not
Coal

2) I find it hard to understand that the Government of the Day hasn't come to realize this yet, when all the evidence is showing us this already. I know it's all about Jobs & Cash, however money won't save the planet only complete understanding of our Earth's needs - which isn't Coal or Cash.

I'm going to list in plain form all the reasons that I believe this Coal Mine & Rail Way Tracks will effect the Residents & Environment Air, Flora & Fauna in the whole of the Southern Highlands & not wanted here (or anywhere) at all.

1) Southern Highlands are Quite Clean a Green Shires & all this would change with the Mine here!

2) Flora & Fauna will be deeply impacted upon, if not destroyed.

3) All vegetables, rivers & drinking Waters, will be jeopardized & undrinkable

4) Huge Stockpile Mountains Subjected to the Westerly Winds blowing over all.

5) Noise Impact! - dust & disruption of coal trains, travelling across the Shire

3) 5) to Port Kembla every day when we treasure our peace & quite.

6) Southern Highland has a huge Tourism industry & is our major Commercial enterprise & this would be destroyed.

7) For all of the above reasons & probably many more that I have overlooked or not realized.

I request that you please don't give permission to "Bume Coal P/K" to commence in the Southern Highland or anywhere else on our Planet.

Yours Sincerely
M. Cuna
