This is a submission to the Santos Narrabri Gas EIS.

I object to this project and recommend that it be rejected.

Our natural environment is all we have for the future - there is no more. We all have a responsibility to care for the water, land, flora and fauna. We must respect the land custodians (indigenous people).

We don't want this! It's not about money and jobs. It's about air/land/animals/birds/water.

I ask the Government to reject this project and make the Great Artesian Basin recharge off-limits to gas mining.

Signed,
