

Koehn Wallace Road
The Channon

18.5.2017

it is very bad for the environment to mine
coal seam gas. I want renewable energy
instead.

Tumahn

My name is tumahn I live in the
channon I am 19 years old I have a problem
with you digging up coal and ~~using it~~
burning it. When you burn coal it releases
~~CO₂ and methane~~ into the atmosphere which
causes climate change I think renewable
energy is a much more suitable for our power.
