This is a submission to the Hume Coal Project EIS. SSD7172

I object to this project and recommend that it be rejected.

I am 15 years of age. I moved to the Goulburn Highlands in November 2013, a beautiful peaceful part of the world from Southern NSW to be close to children and grandchildren. To even contemplate a coal mine in this area is beyond belief. The effect on this area, farming communities, villages, towns will be devastating for the water, noise, traffic, dust and pollution for all residents young and old. Devastating for asthma sufferers and all other allergies. The proposed mine and expansion which has been talked about will have a devastating effect to the community. I consider the effect on water & trees, native habitats, dust noise will have a long lasting effect on the future population and disrupt the existing beauty of the whole community & beyond.

I ask the Government to reject this project

Signed,

J. Gaston
