To whom it may concern,

Support: Hume Coal Project – 7172 / Berrima Rail Project - 7171

After reading the Environmental Impact Statement on the NSW Government Planning & Environment Website, I fully support both the Hume Coal, and Berrima Rail projects, (7172 and 7171).

The positive benefits for local and nearby communities;

- economic growth
- employment
- education and training
- healthcare
- social assistance
- decommissioning of mine infrastructure
- rehabilitating the area, (once project is complete)

The above outweigh the negative benefits and risks, lies and rumours, covered by people who disagree and oppose this Project.

If you have any queries, please do not hesitate to email me ldarchipow@gmail.com.

Kind regards,

Lisa Archipow
