Dear Sir/Madam,

I would like to submit my objection to the coal mine in Sutton Forest NSW proposed by the Korean company POSCO whom have an unlawful documented history in their own country.

My family have a farm in Sutton Forest which will be passed down in generations and this mines destruction will impact the future of its stability. My concern is about pollution, the quality of air our children breathe and the water they drink. No water provided for animals, the plants and trees we have planted will end their survival and the economy for the farm.

We have seen firsthand the bad results and impact mining has had on the Hunter Valley. This will not be a profitable mine, the company tax will unlikely be paid, employment promised will not be fulfilled or sourced from Southern Highlands residents. It will have a negative effect on the local economy and not to mention a decrease in property values.

I strongly object and hope the Minister permanently extinguishes the mineral exploration licences for the region.

Yours sincerely,

Yvette Luscombe.
