

29 June 2017

Samantha Bailey  
42 Conflict Street  
Sutton Forest NSW 2577

Dear Ms Bailey,

**RE: Correspondence 27 June 2017**

In the abovementioned correspondence you have made an assertion that the water model maybe incorrect. I can advise that the water model is conservative and I am of the view that the results and impacts enclosed in previous correspondence represent a realistic outcome on your bore.

Additionally, you have made a request for certain information, specifically;

1. The Groundwater Model
2. The Assumptions
3. Associated data

Your request for this information is denied.

Yours faithfully,

Greig Duncan  
Project Director  
Hume Coal Pty Ltd
