Attn: Executive Director, Resource Assessments Department of Planning and Environment
GPO Box 39
Sydney NSW 2001

This is a submission to the Hume Coal Project EIS. SSD7172

I object to this project and recommend that it be rejected.

For HEALTH reasons. (Toxic physical sickness) my experience regarding the fallout of dust coal dusts that associated sicknesses leads me to REJECT this project completely. When the Port Augusta power station was open the dust coming from Port Augusta led to fatalities.

① My mother died of emphysema (a non smoker)
② Asthma was a regular problem - whichever way the wind blew resulted in children unable to attend school & be admitted to hospital.

③ The highest economic employment is listed as 'Health Care & Social Assistance'. This proposed mine would lead to higher economic expense for hospitals, etc. Lives are far more important!

I ask the Government to reject this project

Signed,

Francis, 2 Ship Chase Court, Bowral
NSW 2576.
