Attn: Executive Director, Resource Assessments Department of Planning and Environment
GPO Box 39
Sydney NSW 2001

This is a submission to the Hume Coal Project EIS. SSD7172

I object to this project and recommend that it be rejected.

The potential impact of the Hume Coal proposal on water and the Sydney Water Catchment of which we are part of.
Humes ~~EIS~~ states that 93 bores will be affected in the project area.

The re-injection of toxic mine waste and chemicals has the potential of contaminating existing ground water.

The so called economic benefits are outweighed with loss of jobs in tourism and agriculture plus increased health costs due to pollution.

POSCO has a very dishonourable international reputation for corruption, environmental destruction and human rights abuse. All well documented in India, Vietnam, West Papua, South Korea & Uzbekistan.

I ask the Government to reject this project

Signed,

Hugh Fane Symonds
