This is a submission to the Hume Coal Project EIS. SSD7172

I object to this project and recommend that it be rejected.

- ① on the grounds that it will severely impact on the local community lifestyle.
- ② this project will destroy the groundwater that the farmers DEPEND on and is already impacting on local farmer's health due to the stress.
- ③ The Government says farms can't be broken up & sold but the gov can do what it wants.
- ④ ~~if~~ the members of the team that makes these decisions lived in such a beautiful area would this go ahead Probably NO

I ask the Government to reject this project

Signed,

Leon C Kelly
