Attn: Executive Director, Resource Assessments
Department of Planning and Environment
GPO Box 39
Sydney NSW 2001

This is a submission to the Hume Coal Project SSD 7172

I object to this project and recommend that it be rejected. on the following grounds

- Concern for native habitat & wildlife through
reduction of water & removal of paddock trees
identified in the Hume Coal EIS (Some of
which are critically endangered.
 - WATER - Our most vital asset - this
development will have an impact on the
Sydney catchment area as well as Southern H/Lads.
We are rich in aquifers, dams, water
courses, creeks wetlands & springs which all
create the habitat of wildlife & the beautiful
Flora & Fauna which in turn creates our
Tourism industry. BUT IT BELONGS TO EVERYONE.
Not just one group of people to exploit for
huge profits & to send our resources OVERSEAS.
When water is drawn down by this proposal it
will have huge affects on all the surrounding farms
PLUS the ISSUE OF TOXIC WATER & WASTE DISPOSAL MUST BE
FULLY CONSIDERED -
- I ask the Government to reject this project

Signed,

Molyneux
