This is a submission to the Hume Coal Project SSD 7172

I object to this project and recommend that it be rejected. *On the following grounds:*

1. *Damage to the aquifer which supplies not only local rural industries but the Sydney Basin water supply.*
2. *Hume Coal have indicated that they will replace water syphoned from the system to farmers and local industry. This is a physical impossibility.*
3. *The proposed mine head and loading facilities is on the doorstep of Berima - New Berima and Moss Vale.*
4. *Noise pollution - Dust pollution will inevitably affect these towns and reduce the amenity and health issues of locals (Particularly if the mine is to be a 24hr operation)*
5. *Untried mining procedures such as proposed by Hume Coal may produce subsidence. (Check out the Newcastle region and upper Centra Coast)*

I ask the Government to reject this project

I have made no political donations in the previous two years.
