This is a submission to the Hume Coal Project EIS. SSD7172

I object to this project and recommend that it be rejected.

The Effect on the Nepean Water I am sure will suffer.

Also residents bore water supply will also suffer.

No body take into account the effect it has on peoples health - the concern & worry.

Also the value on peoples property declines.

I ask would any of the people on the panel like this to happen close to their property.

I ask the Government to reject this project
