This is a submission to the Hume Coal Project SSD 7172

I object to this project and recommend that it be rejected.

A coal mine in this beautiful country area is
not objectionable. The days of coal mining
in New South Wales ceased many years ago, thus
encouraging more people to live in the area.
Consequently this area not only is a
catchment area for the Murrumbidgee River
& then flows into Sydney water's dam,
but also in the case of discharging, the
area is also subject to seasonal quite
heavy earth tremors. This would make the
the tunnels unstable, cause the collapse
of earth above and endanger houses, people
& animals. Coal is fast becoming
unnecessary - I object to the
proposals.

I ask the Government to reject this project
