Sydney NSW 2001

This is a submission to the Hume Coal Project EIS. SSD7172

I object to this project and recommend that it be rejected.

my grave concern is that Hume Coal will forever ~~and~~ change the natural landscape, water purity and pristine environment of the Southern Highlands.

Tourists come to the Southern Highlands to enjoy the serenity, landscape, and unique farmland and gardens -

All of this will be detrimentally impacted as many ~~Bones~~ will not recover for up to 65 years and this will affect land, farms, gardens and people. Water Contamination will happen which will affect people, land, animals, and much more -

The Southern Highlands Tourism will suffer - many businesses will close - it will dramatically affect Real estate prices and the economy -

I ask the Government to reject this project

Signature

This will kill the ~~joy~~ in the ~~area~~
the environment, animals
our Community will forever be changed.
