This is a submission to the Hume Coal Project EIS. SSD7172

I object to this project and recommend that it be rejected.

We have lived in Berrima for over 5 years and our property is on the SOUTH side of Berrima close to the mine site, so we have LOTS of CONCERNS.

① Water - We have a BORE, which we use for watering plants and in the event of another DROUGHT for household use. What guarantee is there that HUME COAL WILL provide us with WATER?

② AQUIFER - Midway Mine DAMAGED the Aquifer and the WATER IS STILL RUNNING, they can't stop it. HOW CAN HUME COAL GUARANTEE that THEY WILL NOT DAMAGE the AQUIFER?

③ AMOUNT OF WATER - VS - SYDNEY CATCHMENT REQUIREMENTS - How can you JUSTIFY stealing water for a DYING INDUSTRY, when it is needed for IMPORTANT ALTERNATIVE USES? ie SYDNEY CATCHMENT.

I ask the Government to reject this project

Signed,
