This is a submission to the Hume Coal Project SSD 7172

I object to this project and recommend that it be rejected.

I vigorously object for three main reasons:

① Health

6 in 20 people suffer from asthma in Lithgow area compared to average 1 in 20. Irregardless where we live in the Highlands area the coal dust, 2.5 micron particles, will adversely affect all who live, work, or drive in the proposed area. This will create serious health implications and economic cost of sustainable jobs in agriculture and tourism.

② Environmental degradation - water

There is a potential drawdown of 80 metres with bores in the area. This will mean

I ask the Government to reject this project

irreversible damage to the local and Sydney water catchment. Additionally, the waste created will be put back into the voids which again can contaminate the water system.

③ Documented abuse of corporate "Posco"

Can we trust Posco in our backyard? No, as documented in their previous dealings in Vietnam, Uzbekistan, N. Korea, West Papua, Our backyard is our home and we should have our government supporting our real future.

I ask the Government to reject this project

Signed, Joe Smith
