Re DA Objection

Location Lot2DP1108702 Barleigh Ranch Way Eagleton

Applicant : Eagleton Rock syndicate Pty Ltd

To whom it may concern,

This letter is to place a submission to object to the above DA for the following reasons,

I am an employee of Eagleton Ridge Respite at Eagleton and I am concerned about the impact this proposed quarry could have on my employment and the residents in my care whilst on duty there. The farm is a peaceful respite center where our clients come to participate in daily activities including outdoor leisure. Many of these clients have lung sensitivities, and the dust and noise could possibly pose severe detrimental effects on their health and well being. Many are fearful of loud noises and vibrations.

We as staff enjoy our breaks in the peace and quiet of the farm and feel this would be impacted greatly by the increase in traffic, noise and dust pollution. Not to mention loss of jobs if the center was forced to close and relocate elsewhere. I would imagine that this quarry would also cause my employers significant loss in the value of their property as they would be unable to resell it for similar purposes.

It is for the above reasons stated that I wish to submit my objection.

Thankyou for your time.

Regards,

Kerry Freer

Residential Support Worker at Eagleton Ridge
