To whom this may concern,

Re: Lot 2 DP 1108702 Barleigh Ranch way
Eagleton N. Sw 2324.

I'm writting to express my concern with the above proposed DA. As a staff (errc) member and a wife of a quarry worker, I'm highly aware of the impact of the approval this DA could cause to my work place, clients and staff.

Errc has been providing services to people for 17 years.

We provide respite for people with disabilities ranging from mild to very high needs.

It will affect the environment within ERRC greatly by the noise of machines

* eg: Truck loading empty trucks.

* Reverse Alarms - carry noise at night that will impact on sleep.

* Blasting will cause vibrations that will rumble the ground badly.

* Dust will be a major problem causing breathing problem for clients.

Should it go ahead it will cause major impact on clients and staff in the day to day running of ERRC.

I strongly object to the proposed quarry and to the approval of

the DA, for all the above reason

Kind Regards

Natasha Redriff
