

LOCATION: Lot 2 DP1108702 Barleigh Ranch Way Eagleton
APPICANT: Eagleton Rock Syndicate Pty Ltd

I object to the above DA for the following reasons:

My place of employment will be exposed to

- vibration from blasting and crushing
- Noise pollution from the activities of the quarry such as the crushers and the truck movements
- Dust from the movement of trucks and associated crushing

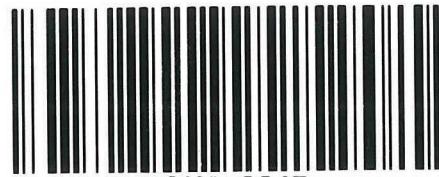

Due to the farm being the central point of all the activities within the community this will negatively affect both myself, the permanent residents living at the group home and visiting clients from the respite centre who access the farm during the day. If the proposed DA be successful, it has the possibility to severely disrupt the nature of the business as it may no longer be a peaceful and safe environment for both the clients and myself. This may result in the closing of the business and the loss of my job.

It will also affect the surrounding areas of Eagleton

- Six Mile Road which is needed for access to the group home will be affected due to an extra 170 trucks per day. The dirt road is already unsafe and adding more trucks may result in road accidents which may harm or kill people.
- The native wildlife will be disrupted and may result in death of many animals from the large machinery or the extra trucks on the road.
