

LOCATION: Lot2 DP1108702 Barleigh Ranch Way Eagleton
APPLICANT: Eagleton Rock Syndicate Pty Ltd

As an employee of Eagleton Ridge Respite Centre, I object to the above DA for the following reasons.

I feel the Quarry will negatively impact my workplace and also the clients who live on the farm and the clients who access the farm during the day. I feel the things that will impact us are:

- Noise from the activities of the quarry such as the crushers and the truck movement
- Vibration from the blasting and crushing
- Dust from the movement of trucks and associated crushing

The farm is a central point of our activities within the community, it will also be the home for 6 people, and is a place for day activities for clients at Bronzewing. Should the proposed DA be successful, it has the possibility to severely disrupt the nature of this business. This in turn could negatively impact on our clients and staff, putting everything been achieved over the past 17 years of its existence.
