To who it may concern

**Subject: Lot 2 DP1108702 Barleigh Ranch Way Eagleton NSW 2324**

I wish to express my concerns and objections with the proposed above DA. As a staff member of Eagleton Ridge Respite Centre (ERRC) for the last 4 years, I can see that the impact of the approval of this DA will be nothing short of devastating for ERRC, its clients and its staff. ERRC have provided services to disable people for 17 years.

ERRC provide respite for people with disabilities ranging from mild to high needs, the impact of having a quarry within such close proximity, will affect the environment within ERRC greatly. Examples of that impact are, noise from the activities such as the crushers and heavy truck movements, vibration from the blasting and the dust from the truck movement and associated crushing.

The above affects can, and will in some instances have major impact on clients that have sensitivity to noise and dust. Should this quarry go ahead it will influence the day to day running of ERRC business, which along with providing respite, also provides group home facilities along with employing 20 plus staff, loss of business will mean loss of jobs.

I wish to strongly object to the proposed quarry and to the approval of the DA, for all the reasons stated above.

Thank you for taking the time to read my concerns.

Kind Regards
