Martins Creek Quarry Project SSD 14_6612 - Letter of Support

We write to confirm we have no objection to the Martins Creek Quarry Project.

We understand the EIS comprehensively addresses the Secretaries Environmental Assessment Requirements.

The proponent, Daracon, employs over 800 people, and is a significant employer of people from within the Hunter Region.

Martins Creek Quarry was a key player in the restoration of the main northern rail line following the 2015 Super Storm. Materials from Martins Creek Quarry were used to repair the main northern rail line.

Local landholders and dairy farmers accessed product from Martins Creek Quarry to repair roads enabling their businesses to continue despite the effects of flooding. Daracon provided these products at a reduced rate for landholders.

Martins Creek Quarry has been in operation for 100 years. We have no objection to the Martins Creek Quarry Project.

Yours faithfully
