TO WHOM IT MAY CONCERN

Daracon have been major supporters of the Terrigal Trojan Rugby Club for the past two years. Through this generous sponsorship the Club has been able to provide training gear to their entire Senior Club and provide additional training programmes for the Junior Club over the past two years.

The support from Daracon has enabled the Terrigal Club to win both the Junior and Senior Club Championships in 2016. Part of the programme has seen the retention of Junior players going through into the Senior grades which has always been a challenge. This year, the Terrigal Club won the First Grade Premiership with a number of players coming through from the Colts to play in the First Grade squads.

Daracon's pledge of their ongoing support ensures this vital program will continue to develop and build, not only football skills but life skills as well for the Central Coast youth of today with the aim of turning them into responsible adults of tomorrow.

We greatly appreciate Daracon for their continued support, without which, clubs like ours would not be able to provide such youth services into the community.

Yours sincerely

John Stevens
President
