Dear Sir/Madam,

**Re: Daracon – Martins Creek Quarry DA Proposal**

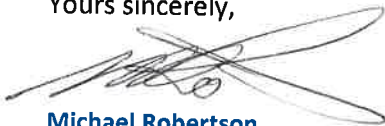

I offer this letter in support of the current DA proposal lodged by Daracon Quarries regarding the expansion of the Martins Creek Quarry.

Daracon and Cleanaway have enjoyed a strong working relationship within this region for many years. During this time, Daracon has demonstrated many endearing qualities, supporting local business communities and charities as well as providing jobs for over 850 employees and over 1000 contractors.

The Martins Creek Quarry provides materials crucial to the growth and prosperity of the region including:- Road Construction, Housing, Railway Construction and Public Infrastructure.

For the region to grow at a rate reported in the Hunter Regional Plan 2036, not only do we need to support local jobs, we need to service the demand of a growing population. The Martins Creek Quarry provides both community and industry with the necessary construction materials in support of a growing population covering both the Upper Hunter and Lower Hunter Regions.

Yours sincerely,

**Michael Robertson**  
Key Account Manager
