Letter of Support - Martins Creek Quarry Project SSD 6612

West Tankers confirms its support for the Martins Creek Quarry Project.

We have had a relationship with Daracon for the past 12yrs. We provide onsite fuel to Martins Creek quarry and the Daracon Group.

It is well known that Martins Creek Quarry produces some of the highest quality construction materials used in the construction industry that meets NSW State Government specification.

Should the project not be approved it will have the impact of removing one of only three suppliers, lessening competition in the region thus having a potential upward impact on the prices of materials.

The expansion project proposed by Daracon also has the potential to alleviate concerns over the regions ability to meet future construction demands required to meet a growing population in the Hunter Region.

Our business supports the proposal by Daracon as the Quarry plays an important role in servicing the construction industry within the Greater Hunter Valley region.

Kind Regards,

Rohin Walandouw

General Manager
