Martins Creek Quarry Project SSD 14_6612 – Letter of Support

Redicrete Pty Ltd wishes to confirm our support for the Martins Creek Quarry Project.

Redicrete Pty Ltd is a local Hunter based concrete supplier currently operating three plants in the Hunter Central Coast region of NSW, we are dependant on the Martins Creek Quarry for our supply of Hard Rock. Redicrete is currently engaged in the supply premixed concrete to the Lend Lease NACC Facility RAAF Base Williamtown which requires the use of Martins Creek concrete aggregates to meet the specification. In addition to the NACC Facility Redicrete is the prime supplier of premixed concrete to more than 60 small to medium Hunter Based Builders and Contractors most of this concrete requires the use of high quality Hard Rock Aggregates that we source from the Martins Creek Quarry.

In all of my dealings with the Daracon Group over the last 22 years in this region I have always found Daracon to be a Role Model in the setting of industry standards for both Safety and Environmental Compliance.

The current and continued expansion of the construction industry in this region continues to increase our reliance of the Martins Creek Quarry in order to meet the growing demand for Premixed Concrete in this region.

Should you require any additional information please give me a call.

Yours sincerely,
Redicrete Pty Ltd

Charlie Peden
Manager

Quality Premixed Concrete
