Martins Creek Quarry Project SSD 14_6612 - Letter of Support

Bowsmark confirms its support for the Martins Creek Quarry Project.

Martins Creek Quarry has been providing quarry product for railway construction, maintenance and repair, infrastructure and road construction in the Hunter Region for approximately 100 years. This has provided employment for many hundreds of people and contributed to the region and state's economic growth.

Our business is involved in the construction industry and provides earthmoving, trenching and excavation and associated services to Daracon, and at Martins Creek Quarry. We have been supplying these services to Daracon for several years.

We understand the Environmental Impact Statement has addressed issues raised by various.

We have found the quality of product from Martins Creek Quarry to be a high standard when used in our work. The Quarry provides hard rock materials to various businesses across the region and is of vital importance to the region, especially the construction industry, including residential construction and road construction and maintenance.

Yours sincerely
Peter Ryan
