To whom it may concern,

I support the proposed Martins Creek Quarry Expansion Project -
Application No. SSD 6612.

As an employee to Daracon for over 13 years as their Landscape Designer, the expansion project is important to me as we risk losing jobs should the expansion not proceed.

Daracon currently employs over 800 staff but without the ability to supply construction materials to the projects we work on, I fear our jobs would be at risk should the expansion not go ahead and I would hate to see my fellow work friends be subjected to job losses and job instability.

Daracon employees are not the only people likely to be affected by this outcome though. Many other local companies, both small and large, rely on the materials supplied from Martins Creek Quarry, or they rely on the stability that the competition within the quarries provides.

Should they lose one of the quarries, the impact on competition would be significant and would affect the cost of these materials.

The quality and supply of materials has enhanced the installation of my jobs and would greatly disadvantage the results of my professional outcomes and results.

In conclusion, I support the Martins Creek Quarry Expansion Project

I have not made any reportable political donation to any of the Daracon Group of companies.

Kind Regards,

Judy Jones
