Re: Martins Creek Quarry Project SSD 14 6612 - Letter of Support

Pryor Plant Hire provides plant hire for many projects within the Hunter Region, from which most of these projects utilise product extracted from the Martins Creek Quarry.

We understand and acknowledge the importance that the quarry holds for not only our business, but also several other businesses that operate within the quarry, and those that rely on the product the quarry produces.

Consequently, this provides many jobs for the local region, and boosts the economy of the Hunter and surrounds by a noticeable amount.

Pryor Plant Hire has been involved with projects at Catherine Hill Bay, Green Hills Shopping Centre redevelopment, Watagan Park and rail works on Kooragang Island.

These projects utilised products from the Martins Creek Quarry.

Because of this, Pryor Plant Hire would like to give its support to the Martins Creek Quarry Project, and advocate for its continuance.

Yours faithfully,

PRYOR PLANT HIRE PTY LTD
