Attention: Director Resource Assessments

The Secretary
NSW Department of Planning and Environment
GPO Box 39
SYDNEY NSW 2001

14th November 2016**Martins Creek Quarry Project SSD 14_6612 - Letter of Support**

We write to confirm we support the Martins Creek Quarry Project.

Our company has had an association with Daracon for a number of years. Currently we are supplying components for the Martins Creek Quarry machinery, including parts for the crusher.

Our business is geared to providing Daracon with parts and we have one employee dedicated to servicing the requirements of Daracon.

From our perspective Daracon has been a significant contributor to our business and is a significant supporter of other small businesses within the local Hunter and surrounding regions. The flow on effects from the Martins Creek Quarry cannot be underestimated and the contribution to small business in the Hunter region is most significant.

Businesses like Daracon and the Martins Creek Quarry are vitally important to the local economy employing many people and supporting local businesses that in turn employ local people.

We support the Martins Creek Quarry Project

We understand the EIS comprehensively addresses the Secretaries Environmental Assessment Requirements.

Yours faithfully

Director Manager.
