Martins Creek Quarry Project SSD 14_6612 - Letter of Support

All Dunn Excavations Pty Ltd confirms its support for the Martins Creek Quarry Project.

Similar like to Martins Creek Quarry, our business is involved in the construction industry. Our industry relies on the availability of hard rock materials like those available at Martins Creek Quarry for the construction of houses, roads, rail and public infrastructure.

It is well known that Martins Creek Quarry produces some of the highest quality construction materials used in the construction industry that meets NSW State Government specification and is one of only three quarries servicing the region.

Should the project not be approved it will have the impact of removing one of the three suppliers, lessening competition in the region.

We have reviewed the Environmental Impact Statement and our business supports the proposal by Daracon. The Quarry plays an important role in servicing the construction industry within the Greater Hunter.

Regards

Scott Dunn
