### **Martins Creek Quarry Projects SSD14\_6612 – Letter of Support**

We support the Martins Creek Quarry Project.

Our company has been working with Daracon for over ten years on a variety of projects, including the construction of residential housing developments, most of which have used products from Martins Creek Quarry.

In addition, we have used products from Martins Creek Quarry for the following projects:

- Cardiff EDI Rail maintenance
- Dungog Shire Council road repair works following the 2015 Super storms
- Dungog Shire Council – Clarence Town Road Upgrade
- Dungog Shire Council – Vacy sub-division works
- Dungog Shire Council area – rural land holders' construction of rural roads and access road; repair of roads following super storm of 2015

Martins Creek Quarry is of key importance locally as it supplies hard rock quarry product to a variety of customers – local councils, landholders, large infrastructure projects, road and rail maintenance projects.

Given the quality of the product from Martins Creek Quarry we are concerned that any additional restrictions or reductions that are placed on the quarry as a condition of approval will have significant affects on the local area – including increased cost of road maintenance and construction, which will impact local rate payers.

We have not made a reportable political donation.

Yours faithfully

A handwritten signature in black ink, appearing to read "J. Redman".
