Attn: Mr Howard Reid

23 Nov 2016

Dear Howard,

**Martins Creek Quarry – Environmental Impact Statement (EIS)
Proponent – Buttai Gravel Pty Ltd (Daracon)
Application No SSD-16-6612**

I write to you in my capacity as President of Paterson Progress Association to lodge our objection to the above application.

Due to meeting schedules we are intending to lodge our detailed objections within 10 days and we trust this will be acceptable.

PPA has been closely involved with this issue from the start, organising the initial public meetings, supporting the formation of MCQAG and attending the CCC meetings organised by Daracon.

From the perspective of our village, the proposed truck numbers and routing would destroy our community. Whilst our position is closely aligned to MCQAG our focus is mainly on Paterson and its immediate surrounds.

I trust you will note our objection and permit us to lodge our detailed objections next week.

Yours sincerely

John
