Martins Creek Quarry Project SSD 14 6612

Boral Asphalt is a specialist road surfacing company and is a subsidiary of Boral Limited, which is one of Australia's leading construction companies.

Boral Asphalt have been conducting business with Daracon in the Hunter for over 30 years as a supplier of spray seal and asphalt services to all levels of civil construction, from private access roads to motorways. Boral limited have also had a business relationship for a similar length of time.

Boral Asphalt has had a business relationship with Martins Creek Quarry since 2004. In that time Martins Creek Quarry has supplied materials for incorporation into asphalt and spray seal products used across the Hunter region. Boral Asphalt currently purchases approximately 50000 tonnes of materials a year for inclusion into our products into our operations.

Daracon now operate the Martins Creek Quarry, which is one of only three hard rock quarries in the region that has the ability to supply the materials required for our business. This material has consistently been proven to meet specifications pertaining to our industry.

Yours sincerely,
Boral Asphalt
