"We oppose the Martins Creek Quarry expansion due to the following reasons -

a) SAFETY - The local roads & bridges were never designed to cope with the weight of ^{today's} trucks with trailers, which often causes near misses.

b) NOISE - Our quiet & peaceful country valley is becoming a noisy semi-industrial area due to noisy trucks heading to or from Martins Creek Quarry as early as 5.30am Monday to Saturday inclusive

c) VIBRATION - The vibration transmitted from the trucks through the ground (and the air) has a significant damaging effect on our homes & property

We don't expect the Quarry to close down however the proposed expansion of the Quarry has too great of a negative impact on everyone in the community. We don't understand why the rail is not fully utilised & the likes of Bloomfield site used for off loading to minimise truck movement in the local area.
